

ST JOHN'S COLLEGE, CAMBRIDGE

CHAPEL & SONG SCHOOL

HEALTH & SAFETY POLICY

Revised August 2021

1. General

St John's College understands that it owes a duty of care to ensure the safety of those who visit or use the Chapel or the Song School. As such we have drafted this Policy to meet our duty under Section 2(3) of the Health and Safety at Work etc. Act 1974.

Our Policy, to be read in conjunction with the College's Health & Safety policy <https://bit.ly/38M77WN>, is to ensure, so far as is reasonably practicable, that our activities are carried out safely and do not pose a risk to the health of our employees, volunteers, congregation, visitors and others who may use the Chapel and Song School. This will be in accordance with good practice and any relevant statutory provisions where they apply.

The Chapel & Choir Department accepts its overall responsibility for this. We will ensure that adequate resources are made available to achieve this objective. Any decisions we make will have due regard for it.

The Dean of Chapel has specific responsibility for this Policy and its implementation. We will keep health and safety matters under review at annual intervals. We will monitor the effectiveness of the Policy, amending it where we believe it is no longer valid.

It is the duty of each employee and volunteer to exercise personal responsibility for their own safety and that of others. This Policy will be brought to their attention. We will try to ensure that everyone involved with the Chapel and Song School plays his or her part in its implementation.

Further details about the Chapel & Choir Department and arrangements for managing health and safety is set out in this document. The document is available via the Chapel website www.joh.cam.ac.uk/chapel-choir. A copy of it will be kept in the Chapel Clerk's Office and made available to others on request.

In order to ensure that health and safety matters are kept constantly under review, an item on health and safety will be on the agenda for all Chapel Team meetings, and employees and voluntary workers will be consulted on a regular basis in order to seek their views on health and safety matters.
